FY 2020-21 | ADOPTED BUDGET AT A GLANCE

| | FY 18-19 Actual | FY 19-20 Budget | FY 20-21 Adopted | |
|----------------|--------------------|--------------------|---------------------|--|
| Revenues | \$27,310,852 | \$23,146,179 | \$23,176,430 | |
| Expenditures | \$23,194,225 | \$22,434,067 | \$21,099,400 | |
| Budget Surplus | \$ 4,116,627 | \$712,112 | \$2,077,030 | |

Revenue by Source

Revenue Assumptions:

- a. No water rate increases; 2% increase in demand.
- b. Meter and Service Fees no increase.
- c. Interest Earnings no increase.
- d. Replenishment Assessment decreasing 23%.

| Water Utility Payments | \$20,010,430 | 85% |
|--------------------------|--------------|------|
| Reimbursements/Other | \$422,000 | 2% |
| Replenishment/Assessment | \$1,320,000 | 6% |
| Meters and Service Fees | \$1,309,000 | 6% |
| Interest Earnings | \$70,000 | <1% |
| Transfer-In | \$45,000 | <1% |
| Total | \$23,176,430 | 100% |

Capital Improvement Budget

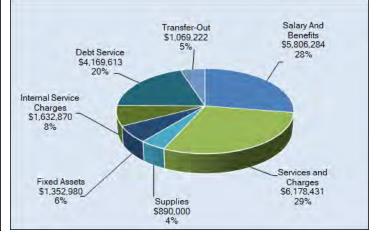

Fund 015 - Supplemental Water Supply Fee Account \$315,000

- Feasibility Study VSD Spreading vs Injection \$300,000
- Administration Transfer to Fund 010 \$15,000

Fund 310 - Capital Impact Fee Account \$780,000

- Calhoun Well Drilling & Equipping \$750,000
- Administration Transfer to Fund 010 \$30,000

Expenditures by Category

Expense Assumptions:

- a. Salary and Benefit Expense increasing <1%
- b. Internal Service Charges Increasing 1%.
- c. Fixed Asset Expense decreasing 40%.
- d. Services and Supplies decreasing by 17%.

| Salary & Benefits | \$5,806,285 | 28% |
|--------------------------|--------------|------|
| Services and Charges | \$6,178,431 | 29% |
| Supplies | \$890,000 | 4% |
| Fixed Assets | \$1,352,980 | 6% |
| Internal Service Charges | \$1,632,870 | 8% |
| Debt Service | \$4,169,613 | 20% |
| Transfer-Out | \$1,069,222 | 5% |
| Total | \$21,099,400 | 100% |

Fund 012-Water Capital Program Account \$1,348,545

- Plant 4 BPS Upgrade \$31,000
- Plant 2 BPS Replacement \$256,545
- Plant 2 Reservoir Seismic Retrofit \$28,000
- Plant 4 Reservoir Seismic Retrofit \$28,000
- Westward Ho Dr. to Fred Warning Channel \$172,000
- Miles Ave Pipe Replacement \$206,000
- Server Room A/C \$20,000
- Backhaul Radio Upgrades \$10,000
- SCADA Upgrade \$12,000
- Field Mobility Project \$25,000
- Well Rehabilitation Program \$260,000
- Pipeline Replacement Program \$200,000
- Hexavalent Chromium Feasibility Study \$100,000

Indio Water Authority

Fiscal Year 2020-2021 Adopted Budget

INTRODUCTION

Mark Scott Executive Director

June 17, 2020

Honorable Commissioners Indio Water Authority 83101 Avenue 45 Indio, CA 92201

SUBJECT: FISCAL YEAR 2020-21 RECOMMENDED BUDGET

Commissioners:

Attached is the Fiscal Year 2020-21 Recommended Budget and spending plan for your consideration and approval. The budget incorporates direction provided by the Board during the budget study session held on June 3, 2020. Approval of this budget document and the associated resolution provides for needed spending authority as of July 1, 2020 for the Indio Water Authority (IWA).

The recommended budget has been developed to conservatively manage financial resources while providing for the highest level of customer service. The budget authorizes \$23.9 million in operating expenditures, inclusive of \$21.1 million in expenditures planned within IWA's operating fund. The budget document also included budgets for the equipment replacement fund and, budgets for capital project fund, the supplemental water supply fund, and the capital impact fee fund exclusively used to fund capital improvement projects.

The projected revenue budget for fiscal year 2020-21 does not include any water rate increases. Revenue growth is projected to only be about two percent, and this growth is projected to come from increased consumption from current accounts and customer growth.

There are no new positions included in the FY 2020-21 recommended budget. The IWA workforce is budgeted at 47 full-time employees, and the City of Indio support staff allocation is at 2.35 persons. The budget includes the elimination of six (6) unfilled positions - two (2) full-time positions and four (4) part-time positions.

IWA will continue to take important steps to monitor, and safeguard the resources required to provide clean, reliable, and safe drinking water to our customers at a reasonable price. Staff is requesting that the IWA Board adopts the Fiscal Year 2020-21 budget. As such, the following action is requested:

IT IS RECOMMENDED that the Board of the Indio Water Authority and Indio City Council:

IWA Board of Directors June 17, 2020 Page 2

- Approve the IWA Fiscal Year 2020-21 Operating and Capital Improvement Budget effective July 1, 2020, including:
 - Appropriations and estimated revenue,
 - o Reserves and transfers, and
 - Resolution 2020-76 (Exhibit A) of the Board of the Indio Water Authority, California, adopting the fiscal year 2020-21 budget and authorizing expenditures and appropriations related thereto.
- Direct the Executive Director to make the allocation of personnel as reflected in the budget document.

Respectfully submitted,

Mark Acatt

Mark Scott Executive Director

RESOLUTION NO. 2020-76

A RESOLUTION OF THE INDIO WATER AUTHORITY ADOPTING THE FISCAL YEAR 2020-21 OPERATING AND CAPITAL IMPROVEMENT BUDGET AND AUTHORIZING EXPENDITURES AND APPROPRIATIONS RELATED THERETO

WHEREAS, at the June 3, 2020 meeting of the Indio Water Authority and the Indio City Council, a study session was held to consider a proposed fiscal year operating and capital improvement budget for fiscal year 2020-21, which begins July 1, 2020 and ends June 30, 2021; and

WHEREAS, the Indio Water Authority subsequently held a noticed public hearing on June 17, 2020 to consider the adoption of the proposed operating and capital improvement budget for fiscal year 2020-21;

WHEREAS, the proposed fiscal year 2020-21 Operating and Capital Improvement Budget provides for service levels necessary to respond to the high standards of the community which are deemed appropriate by the Board and concurrently provides a workforce to accomplish them;

NOW, THEREFORE, THE BOARD OF THE INDIO WATER AUTHORITY DO HEREBY RESOLVE AS FOLLOWS:

Section 1. The proposed 2020-21 budget, as detailed in the budget document entitled "Operating and Capital Improvement Budget Fiscal Year 2020-21 Indio Water Authority, California," and filed with the Secretary, and as summarized below is hereby adopted:

| Year Ending June 30 | Authorized Expenditures |
|---------------------|-------------------------|
| FY 2020-21 | \$23,942,945 |

<u>Section 2.</u> Appropriations in the amount not to exceed \$23,942,945 are authorized for the purpose of carrying on the business of the Indio Water Authority.

<u>Section 3</u>. The Board recognizes that the adopted fiscal year 2020-21 budget will require adjustments from time to time, and accordingly, the General Manager or her designee is authorized to redistribute allocated budgeted amounts within or between divisions. The General Manager or her designee is authorized to transfer up to \$75,000 of any unallocated fund balance to or between divisions. Any transfer above this amount must be approved by the City Council/Board.

<u>Section 4</u>. The Secretary shall attest and certify to the passage and adoption thereof.

PASSED, APPROVED AND ADOPTED this 17th day of June, 2020, by the following vote:

AYES: NOES: ABSENT: ABSTAIN:

Glenn Miller, President

ATTEST:

Cynthia Hernandez, Secretary

APPROVED AS TO FORM:

Roxanne Diaz, General Counsel

Indio Water Authority

Fiscal Year 2020-2021 Adopted Budget

BUDGET OVERVIEW

PROFILE OF THE INDIO WATER AUTHORITY

FORMATION AND SERVICE AREA

Indio Water Authority (IWA) was formed as a Joint Powers Authority (JPA) on April 19, 2000 to deliver water to the City of Indio; the current members are the City of Indio and Indio Housing Authority. Its mission is to provide the City's residents, visitors and businesses with safe and reliable water, while ensuring the long-term viability of the City's water services for its users. IWA is governed by a five (5) member board consisting of the City's five (5) elected City Council members.

IWA provides water to a population of approximately 89,406 within its current 38 square mile service area, which is located 120 miles east of Los Angeles in the Coachella Valley of Riverside County, California. IWA encompasses the majority of the community of Indio and some of the unincorporated areas of Indio Hills.

WATER SUPPLY, MANAGEMENT AND CAPACITY

IWA's potable groundwater is pumped from deep aquifers in the Indio Subbasin of the Coachella Valley (the "Groundwater Basin"). The City possesses non-adjudicated groundwater rights, which means that the City may use and sell water from portions of the Groundwater Basin within its service area, but may not sell its water rights. Other agencies also have similar water rights to the Groundwater Basin. Currently water from the basin is pumped to the surface using 20 wells with a capacity of 40 million gallons per day spread throughout the City of Indio. Three (3) of the 20 wells are equipped with Strong Based Anion exchange (SBA) to treat for Hexavalent Chromium (Chromium 6).

The groundwater wells pump water to above ground storage reservoirs at four (4) production plants. Each production plant has a storage reservoir, booster pump station, disinfection equipment, and hydro-pneumatic tank to maintain system pressure when the pumps are turned off. The deep groundwater wells supplying distribution these plants for storage and are controlled bv various instrumentations through the Supervisory Control and Data Acquisition (SCADA) system. Five (5) deep groundwater wells supply water directly into the distribution system and are controlled by SCADA.

To ensure long-term reliability of the water basin, the basin is cooperatively managed by the four (4) groundwater sustainability agencies - Coachella Valley Water District, Coachella Water Agency, Desert Water Agency, and Indio Water Authority. The management actions include groundwater replenishment at three (3) sites using imported water, source substitution using imported water and recycled water, and demand reduction through conservation. From 2012 to 2017, much or all of California was under severe drought, and California's has a history of extended periods of drought. In response to Governor Brown's January 17, 2014 declaration of a drought emergency in California, the City codified its "Water Contingency Plan" which Shortage established voluntary and mandatory water conservation standards intended to alter behavior related to water use efficiency and further established four stages of action to be implemented during times of declared water shortage or declared water shortage emergency, with increasing restrictions on water use, in order to better implement and enforce conservation measures.

While the emergency order was lifted in April 2017 and water consumption rebounded in what is often termed as "drought/conservation

fatigue", IWA has increased its water efficiency efforts since 2019. IWA's entire water supply is currently groundwater, therefore, water use efficiency is a key component of our water supply strategy. Beyond water use reduction, water use efficiency helps limit rate increases because it lowers energy/ pumping cost and helps defer costly water supply projects. The increased focus on conservation includes higher indoor and outdoor rebates/ incentives, enhanced public outreach and conservation education, and better enforcement of water efficient landscape development standards.

WATER PRODUCTION

Table 1 below shows a five-year history of groundwater pumped by the Authority.

Table 1 Historical Annual Pumping

| (Hundred Cubic Feet – CCF) | | | |
|----------------------------|--|--|--|
| Total Groundwater Pumped | | | |
| 8,609,799 | | | |
| 7,312,186 | | | |
| 7,672,822 | | | |
| 8,375,689 | | | |
| 8,309,037 | | | |
| | | | |

Table 2 below shows the City's water demand reflecting actual figures for 2014 and projected demand through 2030 based on the 2012 Water Master Plan Update.

Table 2Projected Water Demand and Capacity
(Hundred Cubic Feet – CCF)

| Calendar Year | Water Demand | Potable Water Capacity |
|---------------|--------------|------------------------|
| 2020 | 10,877,292 | 29,349,285 |
| 2025 | 12,731,395 | 36,686,606 |
| 2030 | 14,096,935 | 36,686,606 |

WATER QUALITY

IWA delivers high quality water based on the monthly data compiled and reported to the State Water Resources Control Board, Division of Drinking Water. IWA uses state certified laboratories for bacteriological, physical, chemical, and radiological water analysis. Samples are collected from the entire water system weekly and submitted for testing to ensure the safety of the water and compliance with Federal Environmental Protection Agency's Safe Drinking Water Act and the California drinking water standards. Sodium hypochlorite solution is used to disinfect and maintain chlorine residual throughout the distribution system. In 2015, IWA installed three (3) SBA well head treatment units to treat

Chromium 6 in response to the new State drinking water standard referred to the Maximum Contaminant Level (MCL). The 2015 Chromium 6 MCL has since been removed on May 5, 2017. The State is expected to reinstate a MCL for Chromium 6 that may require IWA to install additional treatment units to comply and meet the standard. IWA has continued to operate all three SBA well head treatment units in preparation for the upcoming MCL. The continued use of the SBA systems has allowed staff to gain valuable operating experience, while confirming the effectiveness of treatment using this technology. IWA is also exploring cost effective treatment options to address changes to the Chromium 6 MCL and ensure compliance by participating in treatment pilot studies focused on delivering safe drinking water to our residents.

CUSTOMER BASE

During FY 2020-21, IWA expects to add approximately 300 water connections to the system, ending the fiscal year with about 23,800 water connections. The majority of the water system connections are residential, with the remaining connections representing commercial and other uses. The water system does not supply water for agricultural irrigation purposes. The City does not currently sell water to other municipalities, but there are three interconnections within the City to other utilities for emergency purposes.

Table 3 below is a historical illustration of IWA's total water meters by fiscal year.

| | N | lumber of Wa | ater Meters | | |
|--------------|----------------|----------------|----------------|----------------|----------------|
| | <u>2014-15</u> | <u>2015-16</u> | <u>2016-17</u> | <u>2017-18</u> | <u>2018-19</u> |
| Residential | 20,596 | 20,823 | 21,065 | 21,371 | 21,768 |
| Commercial* | 1,765 | 1,761 | 1,838 | 1,924 | 1,804 |
| Total Meters | 22,361 | 22,584 | 22,903 | 22,903 | 23,572 |

Table 3Number of Water Meters

*Commercial category include all non-residential meters

Residential customers comprise 92% of IWA's customer base and consumed approximately 72% of the water produced.

FISCAL MANAGEMENT

IWA's Board of Directors annually adopts an operating and capital budget prior to the new fiscal year. The budget authorizes and provides the basis for reporting control of financial operations and accountability for IWA enterprise functions, including the water fund, supplemental water supply fund, water capital impact fee fund, and equipment replacement fund.

The budget and the reporting treatment are applied to funds consistent with the accrual basis of accounting. Since its inception, IWA has adopted a balanced budget annually.

During FY 2019-20, IWA was able to complete projects which will continue to enhance customer service, technology, production, and provide efficiencies in operations to meet future demands.

FY 2019-20 HIGHLIGHTS AND ACCOMPLISHMENTS

Administration

- Ensured continuity of business and uninterrupted water supply during COVID-19 through effective planning, management, and communication.
- IWA Board of Directors approved the highest turf removal incentives since program inception, increasing the incentive for all customer categories and raising the maximum rebate amounts.
- IWA Board approved a Memorandum of Understanding with the United Way of the Desert for the funding and administration of a Residential Customer Assistance Program.
- General Manager facilitated a successful review, analysis and provision of recommendations regarding options for electricity services to the City of Indio.
- Filled critical vacancies including the Assistant General Manager/Engineering & Water Resources, Conservation & Outreach Coordinator, and Associate Engineer.
- Presented and received direction from City Council/Board and the East Valley Reclamation Authority on Water Supply Goals and Priorities.
- Conducted resource forecasting for several operational programs and managed the completion of the 2019 Water Master Plan.
- Developed IWA's requirements and involvement in Citywide projects such as land management system, enterprise resource planning system, technology master plan, and building permit process.
- Selected Tyler Munis for new utility billing system and participated in Tyler Munis implementation.
- Managed the successful consolidation of the Boe Del Heights Mutual Water Association and the Waller Tract Mutual Water Association into IWA funded by a \$5.5 million grant by the State Water Resources Control Board.
- Successfully managed the closeout of the \$7.3 million Proposition 84 Round 3 Grant Agreement (\$5.2 million grant, \$2.1 million local cost share), the first regional grant agreement administered by IWA.
- Worked with the other Indio Subbasin groundwater sustainability agencies to prepare and submit the third Annual Report for the Indio

Sub-basin for Water Year 2018-2019 in compliance with the Sustainable Groundwater Management Act of 2014.

- Received tentative grant awards for two regional grants \$250,000 in Proposition 1 funding for turf removal and \$125,000 in Proposition 68 funding for the Alternative Plan Update.
- Negotiated with the Coachella Valley Mountains Conservancy to provide \$48,993 in additional funding for the East Indio Hills Trailhead improvements and completed the improvements.
- Through conservation, achieved a 13.2% percent decrease in demand and groundwater production compared to the corresponding period in the baseline year of 2013.
- Increased social media reach and engagement by over 800% through content that is more effective and leveraging events and City's social media.
- Completed the first Standard Operating Procedures (SOP) for the Water Conservation Program.
- Executed a Memorandum of Understanding with the Coachella Valley History Museum for the development of a Water Conservation Demonstration Garden.
- Completed and submitted the Annual Water Loss Audit Report to the California Department of Water Resources, which shows that IWA's system water loss is lower than the typical California water utility.
- Met the reporting requirements of the State of California Model Water Efficiency Landscape Ordinance (MWELO) and instituted a stakeholder process to ensure consistent application and enforcement of IWA's Water Efficient Landscape Development Standards.
- Executed Memorandums of Understanding with other water agencies in the region for the joint preparation of the 2020 Coachella Valley Regional Urban Water Management Plan and the 2022 Alternative Plan Update (Coachella Valley Water Management Plan); both plans are on schedule.
- Working collaboratively with regional stakeholders on long-term water management and regional issues such as salt and nutrients management planning, water quality, integrated regional water management, and surface water supply and groundwater replenishment.

Engineering and Water Resources

- Construction of 1,350 linear feet of new 12-inch water main on Highway 111 between Arabia St and Oasis St. to improve fire protection and system reliability.
- Approval of developer-funded water improvement projects including Barcelona, Shadow Ranch, Terra Lago and Trilogy.
- Performed over 2,000 water quality samples, testing and analysis as part of the Department of Drinking Water requirements to meet the state drinking water compliance standards.
- Utilized Global Positioning System (GPS) to survey existing water infrastructure including meters, valves, and hydrants to continue to improve accuracy and reliability of IWA's GIS database and improve usage of the GIS-based asset management system, Cityworks.
- Developed and completed the Water Master Plan (finalized during fiscal year 19-20), including updating the hydraulic model and developing a 20 year Capital Improvement Program.
- Began preparation of the Emergency Response Plan 2020 Update in order to be in compliance with the 2018 America's Water Infrastructure Act (AWIA).
- EVRA Project.

Production and Distribution

- Repaired and replaced water services, including pavement repairs
- Repaired and replaced large inoperable water main valves, including pavement repairs.
- Performed dead-end flushing, annual backflow testing and collected bacteriological samples to maintain water quality.
- Read meters for billing and collection of consumption data, which assists our customers to conserve water.
- Expanded Advance Metering Infrastructure (AMI).
- Performed valve exercising to maintain infrastructure operability and water quality.
- Worked with other divisions and consultants to optimize water system performance
- Repaired two (2) vertical motors.
- Operation and Maintenance of three (3) strong base anion exchange units.
- Replaced cathodic protection at Plant 2 and 3 steel tank reservoirs to increase longevity of the interior lining.
- Produced and delivered safe drinking water to customers.
- Maintained non-revenue water below 10 percent.
- Successfully implemented the asset management program.
- Upgraded Supervisory Control and Data Acquisition (SCADA) programming at multiple production facilities.

Finance and Customer Services

- Timely processing of over 60,000 financial transactions to support IWA's core functions.
- 9,576 customer service calls were taken in call center during the year.
- Coordinated the auditing of Fiscal Year 2018-19 Financial Statements.
- Completed AB1600 reporting requirements to the Building Industry Association and the Desert Valley Building Association.
- Working on proposal to replace the current financial system with Tyler UNIS.
- Completed SB 998 State Mandated Water Shut Off Policy.

Information Technology

- Completed Windows 10 upgrade project for all IWA endpoints.
- Continued endpoint hardware refresh project.
- Continued to improve wireless capability at sites utilizing Lost Horse as an access point.
- Installed redundant wireless links between Corp Yard, Lost Horse and Plant 4.
- Implemented the fiber connection between the Corp Yard and City Hall.
- Completed upgrade and migration of Cityworks and ArcGIS.
- Implemented NV2CW program to automate the process of SR/WO creating in Cityworks.

IWA's budget is developed with goals and objectives in mind to meet the needs of the community and enhance operational efficiencies. Looking forward to FY 2020-21, the Authority will focus on the following goals and objectives.

FY 2020-21 BUDGET SUMMARY

Operating Revenues

Revenue from water sales for FY 2020-21 is projected at \$20.0 million. Other revenues, including charges for services, interest earnings, reimbursements and service connection fees, totaled \$2.7 million. Grant revenue is projected at \$422,000 for a combined total operating revenue of \$25.2 million. The total revenue budget has increased by \$30,251 compared to the prior fiscal year.

Operating Expenses

Total expenses and outlay (including capital projects and equipment replacement) budgeted for FY 2020-21 is \$23.9 million, a decrease of \$3.5 million from FY 2019-20 due to decreases in Grant funded projects.

Capital Expenditures

IWA's capital outlay program includes three capital improvement project funds along with the vehicle and equipment replacement fund. Total capital outlays from all these funds in FY 2020-21 totals \$2.9 million.

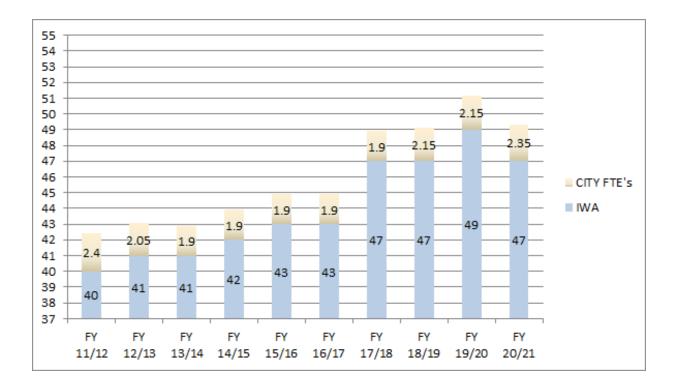

The primary objective of the capital outlay program is to replace assets that have reached or surpassed their useful life, to construct new projects that assist IWA in achieving higher service and reliability standards and improve long-term operating efficiencies.

- The Water Capital Impact Fee (Fund 310) budget is \$780,000 and will be used for:
 - Calhoun Well Drilling & Equipping
 - Administrative Transfer to Operating Fund
- The Supplemental Water Supply Fund (Fund 015) budget is \$315,00 and will be used for:
 - Feasibility Study VSD Spreading vs Injection
 - Administrative Transfer to Operating Fund
- The Capital Program Fund (Fund 012) budget is \$1,348,545 and will be used for:
 - Plant 4 BPS Upgrade
 - o Plant 2 BPS Replacement
 - o Plant 2 Reservoir Seismic Retrofit
 - o Plant 4 Reservoir Seismic Retrofit
 - Westward Ho Dr. to Fred Warning Channel
 - o Miles Ave Pipe Replacement
 - Server Room A/C
 - Backhaul Radio Upgrades
 - o SCADA Upgrade
 - Field Mobility Project
 - Well Rehabilitation Program
 - o Pipeline Replacement Program
 - o Hexavalent Chromium Feasibility Study
- The Equipment Replacement Fund budget totals \$400,000 to cover anticipated equipment replacement needs.

STAFFING AND PERSONNEL

For FY 2020-21, there are 47 authorized IWA full-time positions, and 2.35 partially city funded positions. The chart below provides a historical summary of IWA funded full-time positions, and partially city funded position

IWA Full-Time Employees

RESERVE FUNDS

Currently, IWA has six (6) reserve funds with varied target levels of funding dependent upon operational needs and the Board's approval. The funding of these reserves reflects the importance of the adopted policies to ensure prudent fiscal management, long-term operational solvency, along with the preservation of adequate service levels.

Two of these reserves are restricted, which are the rate stabilization and water transfer reserve funds. The equipment or capital reserve funds can be used with authorization through the budgetary process, and are administered by IWA's General Manager. The remaining two reserve funds are for operational needs and emergencies. These two funds are administered by the General Manager to meet day-to-day operational needs or respond to a natural disaster or other emergency if needed.

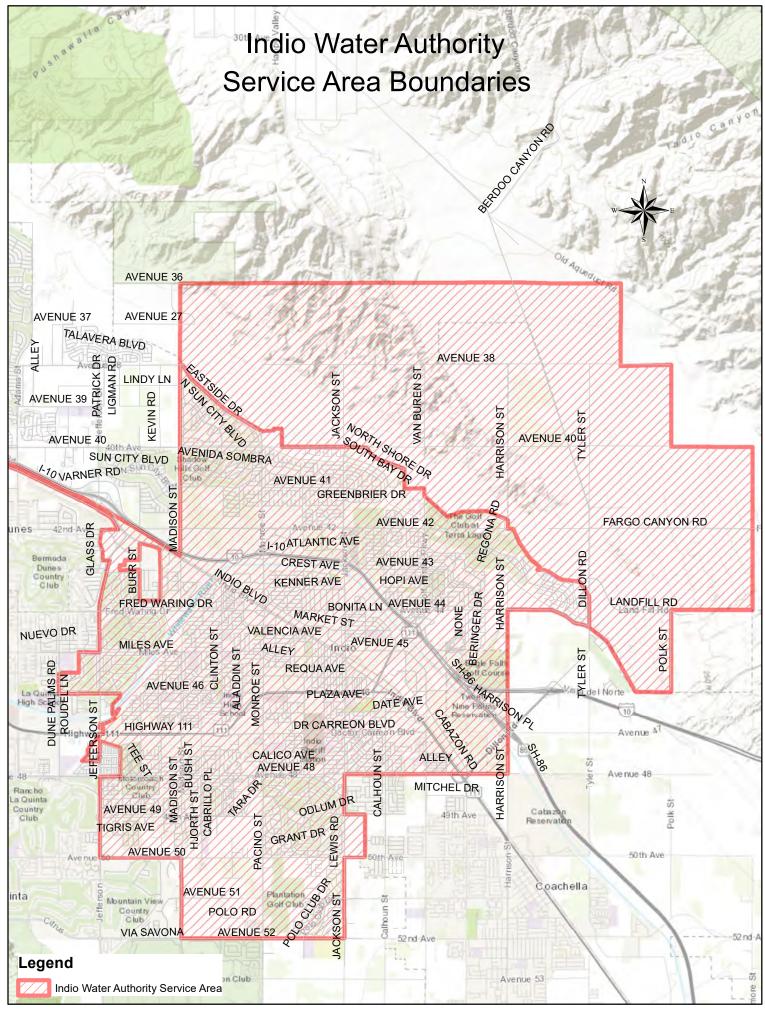

The Reserve Program is currently being revised as part of the Long-Range Financial Plan process. The Long-Range Plan will be complete in the coming months and will be brought to the Board for consideration along with the recommended Reserve Program.

DEBT ADMINISTRATION

On October 1, 2006, the Indio Water Authority issued \$61,795,000 Water Lease Revenue Bond Series. Some of the proceeds were used to repay the 2004 Bond Series and the remainder were used for various capital maintenance and improvement projects to build new reservoirs, wells, boosters stations, pipelines, a corporate facility building, and system administration.

On June 2, 2015, the Indio Water Authority issued \$60,215,000 of Water Revenue Bonds. The 2015 bond issue refunded the outstanding bonds from the 2006 bond issue. In addition to refunding the 2006 bond issue, the 2015 bond issue generated approximately \$4.8 million in new proceeds to fund necessary project improvements to insure treatment of Hexavalent Chromium within the required maximum containment level. The Bonds are paid from IWA net revenues and from certain funds held under the indenture. On May 11, 2018 the Indio Water Authority credit rating of "A/Stable" was upgraded to "A+/Stable by Standard and Poor's for the 2015 bond issue. The upgraded rating reflected that the IWA's financial strength during last three fiscal years was very robust. According to the opinion of the Standard and Poor's, this trend is expected to continue given management' history of implementing timely rate increases. The rating shows that the IWA has a very strong risk profile and financial risk profile.

The FY 2020-21 debt service payments for the 2015 bond issue will total \$4,169,613.

| Budget Unit: | Water Authority Administration Administration | | Fund: Department: | | | | | | |
| Administration is responsible for the overall day-to-day management of the IWA. Daily management includes the planning, control, direction and evaluation of the Authority's programs and resources. Administration staff researches and prepares recommendations for consideration by the Board on issues facing the Authority. Vested in Administration is the primary responsibility for assuring that Board policies are properly administered. The operating cost of Administration goes towards conservation, legal services, water resource services, training, professional memberships, policies, procedures, analysis and reporting of goals and outcomes of the agency. Other costs include the Replenishment Assessment Charge paid to the Coachella Valley Water District (CVWD). | | | | | | | | | |

|---|---|-------------------------------|-------------------------------------|---------------------------------|--|--|--|--|--|--|
| Budget Unit: | Water Authority Operations Transmission/Distr | ibution | Fund: Department: | | | | | | | |
| Water Transmission / Distribution provides customers with high quality potable water. The distribution system requires a team effort of daily operation and regular maintenance to ensure a reliable and consistent water supply. The Water and Transmission/Distribution division maintains and replaces: service lines, valves and fire hydrants. Water Transmission/Distribution also includes meter readers which read approximately 22,700 meters per month using manual and automated meter reading technology. | | | | | | | | | | |

| Information Technology (IT) Unit was established in FY 2012-13 and is responsible for the administration and coordination of the Authority's computer systems, including the Geographic Information System (GIS), and Supervisory Control and Data Acquisition (SCADA). The IT Unit provides ongoing support for future planning, employee technical training, and coordinates related services with contract consultants. Information systems supported by IT include: telephones, cell phones, ERICA radio communication system, voice-mail, routers, switches, VPN, and firewalls. IT also maintains internet and intranet connections including the monitoring and security of IWA's computer network data traffic. | | | | | | | | | |

Fund 012 – Operating/Rate Revenue Fund Projects:

\$1,383,545 [FY 20-21]

Plant 4 Booster Pump Station (BPS) Upgrade [CIP-BPS-001]

Project Location: North-West corner of Avenue 45 and Shields Road

Project Scope: Planning/Design Phase – The project will increase Plant 4 Booster Pump Station's capacity by 2,200 gallons per minute (gpm) and add variable frequency drive (VFD) controls. The project does not include building improvements. This project will provide improved fire flow capacity and pressure to the Western part of the distribution system.

Schedule: Fall 2020 – Spring 2023

Budget: FY 20-21: \$31,000, Total Project Budget: \$139,000

Plant 2 BPS Replacement [CIP-BPS-002]

Project Location: North-West corner of Monroe Street and Crown Way

Project Scope: Planning Phase – The project will consist of replacing the 6,000 gpm pump station, building, electrical, and generator. This project will provide improved fire flow capacity and pressure to the distribution system.

Schedule: Fall 2020 – Spring 2024

Budget: FY 20-21: \$256,545, Total Project Budget: \$5,187,000

Plant 2 & 4 Reservoir Seismic Retrofit [CIP-GT-002 & -004]

Project Location: North-West corner of Monroe Street and Crown Way (Plant 2) & North-West corner of Avenue 45 and Shields Road (Plant 4)

Project Scope: Planning Phase – The project will consist of replacing the 6,000 gpm pump station, building, electrical, and generator. This project will improve the water system resiliency in the case of a major earthquake event.

Schedule: Fall 2020 – Spring 2023

Budget: FY 20-21: \$56,000, Total Project Budget: \$336,000

Miles Ave. Pipeline Replacement 1 [CIP-P-016]

Project Location: East of Jefferson St., along Miles Avenue

Project Scope: Design Phase – The project includes the installation of 2,650 feet of 18-inch water main along Miles Ave., East of Jefferson Street. This pipeline will loop the distribution system, will provide increased fire flow protection, and help with improved supply needs in this part of the distribution system.

Schedule: Fall 2020 – Spring 2022

Budget: FY 20-21: \$206,000, Total Project Budget: \$1,030,000

Westward Ho Dr. Storwater Channel Crossing – CARRYOVER PROJECT [CIP-P-015]

Project Location: East of Jefferson St., along Westward Ho Drive

Project Scope: Design Phase – The project includes Horizontal Directional Drilling of 800 feet of 18-inch pipe with roughly 20 feet of cover along Westward Ho Dr. This project will provide improved fire flow capacity and pressure to the Western part of the distribution system

Schedule: Fall 2020 – Spring 2023

Budget: FY 20-21: \$172,000, Total Project Budget: \$1,859,000

Server Room A/C [CIP-TEL-002]

Project Location: City of Indio Corporate Yard (83101 Avenue 45, Indio, CA)

Project Scope: Add air conditioning system and ducting to Server Room at the City of Indio Corporate Yard. This project will help improve the lifespan and reliability of the IWA servers.

Schedule: Fall 2020 – Spring 2021

Budget: FY 20-21: \$20,000, Total Project Budget: \$20,000

Backhaul Radio Upgrades/Replacements [CIP-TEL-003]

Project Location: City of Indio Corporate Yard (83101 Avenue 45, Indio, CA)

Project Scope: Technology – Project consists of the replacement and upgrade of radios/license coordination only and does not include new tower costs. This project will help IWA's staff to safely communicate in critical times of emergency situations.

Schedule: Fall 2020 – Spring 2022

Budget: FY 20-21: \$10,000, Total Project Budget: \$20,000

SCADA Network Security [CIP-TEL-008]

Project Location: Multiple Well and Plant locations throughout the IWA Service Area

Project Scope: Technology/Security – SCADA network security hardware and consulting services for the update of the existing SCADA system. This project will help prevent from potential intrusion into IWA's SCADA system from remote attackers.

Schedule: Fall 2020 – Spring 2023

Budget: FY 20-21: \$12,000, Total Project Budget: \$36,000

Field Mobility Project [CIP-TEL-009]

Project Location: Throughout the IWA Service Area

Project Scope: Technology – Increase usage of tablets in the field for use of Cityworks. This project will help IWA gather critical day to day information about it's staff activities in order to utilize this data for future decision-making efforts.

Schedule: Fall 2020 – Spring 2021

Budget: FY 20-21: \$25,000, Total Project Budget: \$25,000

Well Rehabilitation Program [CIP-W-001]

Project Location: Multiple Well locations throughout the IWA Service Area

Project Scope: Rehabilitate Wells AA and T in FY 20-21 – Part of a 10-year program to rehabilitate 2 wells per year, which includes aquifer zone testing, pump removal, casing rehabilitation, video survey, disinfection, and pump reinstallation. The well rehabilitation program will provide IWA with increased lifespan across its wells in order to ensure water source reliability into the future.

Schedule: Fall 2020 – Spring 2030

Budget: FY 20-21: \$260,000, Total Project Budget: \$2,600,000

Hexavalent Chromium Well Treatment [UNC-W-005]

Project Location: Multiple well locations throughout the IWA Service Area

Project Scope: Planning/Design Phase - The State Water Resources Control Board previously imposed a Maximum Contaminant Level (MCL) for Hexavalent Chromium (Cr6) in 2015. IWA installed wellhead treatment units at three of the City's groundwater wells to remove Cr 6 and meet the MCL. The available wellhead treatment for Chromium 6 removal is called strong base anion (SBA) exchange resins and requires a substantial capital and operational investment to operate. The MCL has since been removed in May 2017, but is expected to be reinstated in the early part of 2021. In preparation for the MCL, IWA will explore cost effective treatment alternatives to ensure compliance by participating in treatment pilot studies focused on delivering safe drinking water to our residents. A total of \$100,000 is proposed for FY 2020-21 for pilot studies and research of a promising treatment alternative referred to as Stannous Chloride. The goal of this funding is to demonstrate that this alternative is effective in meeting the MCL, while saving millions of dollars in treatment and operational costs.

Schedule: Fall 2020 – Spring 2021

Budget: FY 20-21: \$100,000, Total Project Budget will depend on study findings

Pipeline Replacement Program [PRG-MAINT-017]

Project Location: Multiple pipeline locations throughout the IWA Service Area

Project Scope: Replace 1,000 linear feet of pipe in areas with the greatest need such as pipe upsize or very low pressures; part of a 20-year program for replacement of pipelines throughout the entire distribution system. The pipeline replacement project will help IWA to be able to provide fire flow capacity and adequate pressure across the distribution system.

Schedule: Fall 2020 – Spring 2040

Budget: FY 20-21: \$200,000, Total Project Budget: \$4,000,000

Fund Group:Supplemental Water SupplyBudget Unit:Indio Water Authority

Fund: 015

As of March 1, 2013, a Supplemental Water Supply Fee is assessed on development projects in the City of Indio. The fee provides a framework to alleviate the strain on IWA's groundwater supply and is based on future water demands for new developments. Funds will be used to pursue the development of recycled water for future growth in Indio through indirect potable water reuse through injection. In fiscal year 2016-17, IWA began a recycled water project design.

Recycled Water Treatment [CIP-RW-005]

Project Location: Valley Sanitary District main yard location (45500 Van Buren St, Indio, CA)

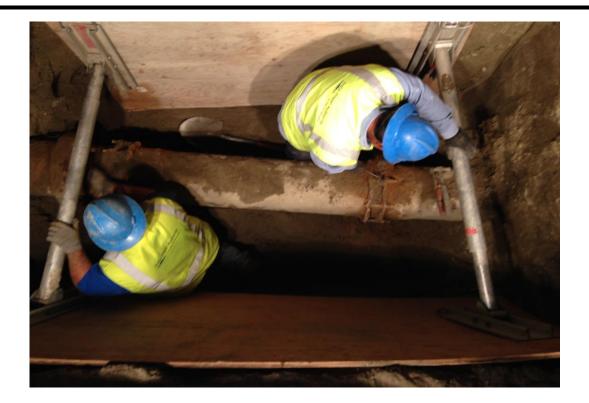

Project Scope: The project will explore the feasibility of two recycled water options at the Valley Sanitary District – namely Injection and/or Spreading of treated recycled water. This project will help IWA to find a secondary source of water in order to not rely solely on groundwater and reduce its risk of not being able to meet the increasing water demand.

Schedule: Fall 2020 – Spring 2028

Budget: FY 20-21: \$300,000, Total Project Budget will depend on selected project feasibility.

Calhoun Well Drilling and Equipping [CIP-W-002]

Project Location: North-East of Calhoun Street and Avenue 43 intersection

Project Scope: Planning Phase – This project will add 2,000 gpm of supply capacity to the distribution system. Well site will be located on the corner of Calhoun St. and Teton Way. This project will provide a well on the North part of the IWA service area in order to provide adequate fire flow capacity and pressure in this area.

Schedule: Fall 2020 – Spring 2023

Budget: FY 20-21: \$750,000, Total Project Budget: \$3.500,000

Summary of Reserve Funds

**Balance at the end of FY 2018/19

Description of Reserve Funds

1 - Operating Reserve

90 days of operating budget, preserve credit worthiness of IWA, provide liquidity

2 - Capital Repair and Replacement/System Improvement Reserve

Provides timely acquisition, replacement, and upgrades of water system, should be funded at minimum of 40% of capital maintenance budget over the previous five years

3 - Equipment Replacement Reserve

For safe, reliable, functioning, and up-to-date vehicles and equipment; fund at required replacement for the following years budgeted or maintain minimum balance of \$500,000

4 - Rate Stabilization Reserve

Provide more stable water service charges to IWA customers such as for periods of drought and natural disasters; should be funded at 2% of water sales revenue

5 - Water Transfer Reserve

To purchase new water sources and ensure adequate water for future growth as water demands increase or droughts occur, should be funded at minimum of \$1,750,000

6 - Emergency Reserves

For responding to natural disasters and/or other emergencies; should be funded at minimum of 2.5% of current net depreciated assets, but no greater than 5% of current depreciated assets

* As per policy approved by the IWA Board of Directors on February 7, 2012

Indio Water Authority

Fiscal Year 2020-2021 Adopted Budget

APPENDIX-GLOSSARY

LIST OF ACRONYMS

GLOSSARY

ACCRUAL BASIS OF ACCOUTING – The basis of accounting under which transactions are recognized when they occur, regardless of the timing of cash receipts and disbursements

ADOPTED EXPENDITURE – The amount of expenditures approved by the Board of Directors to be spent during the fiscal year

ADOPTED REVENUE – The amount of revenues approved by the Board to be collected during the fiscal year

APPROPRIATION – A funding authorization made by the Board of Directors, which permits the IWA to incur obligations and to make expenditures of resources

ASSETS – Resources owned or held by the Authority that have monetary value

BOARD – Comprised of the City of Indio's five elected City Council members with a rotating president, collectively acting as the legislative and policy-making body of the IWA

BOND – A written promise to pay a specified sum of money, called the face value of principal amount, at a specified date or dates in the future, called the maturity date(s), together with periodic interest at a specified rate

BONDED DEBT – That portion of indebtedness represented by outstanding bonds

BUDGET – A financial plan, for a specified period, of operations that matches all planned revenues and expenditures with the services provided to the residents of the City of Indio

BUDGET DOCUMENT – The instrument used by the budget-making authority to present a comprehensive financial plan of operations to the IWA Board of Directors

BUDGET MESSAGE – The opening section of the budget from the General Manager, which provides the Board and the public with a general summary of the most important aspects of the budget

BUDGET ORDINANCE – The official enactment by the IWA Board to legally authorize IWA staff to obligate and expend revenues

CAPITAL IMPROVEMENTS – Expenses related to the construction, rehabilitation and modernization of the Authority's owned and operated infrastructure

CAPITAL PROJECTS FUND – A fund created to account for financial resources to be used for the acquisition or the construction of major capital facilities or equipment. These expenditures are separate from regular operating items, such as salaries and office supplies

CHARGES FOR SERVICES – Revenue from charges for all activities of the Authority

CONTRACT SERVICES – The costs related to services performed for the Authority by individuals, businesses or utilities

DEBT SERVICE FUND – A fund established to account for the accumulation of resources for, and the payment of, long-term debt principal and interest

DEPARTMENT – A major administrative organizational unit of the Authority that indicates overall management responsibility for one or more divisions

DEPRECIATION – The decrease in value of physical assets due to use and the passage of time; in accounting for depreciation, the cost of a fixed asset is prorated over the estimated service life of such an asset, and each year is charged with a portion of such cost; through this process, the entire cost of the asset is ultimately charged off as an expense; this is done in proprietary funds, which allows the calculation of net income for each fund

DIVISION – A major administrative organizational unit of the IWA that indicates overall management responsibility for one or more activities

ENCUMBRANCE – The commitment of appropriated funds to purchase an item or service; to encumber funds means to set aside or commit funds for a future expenditure

EXPENDITURES/EXPENSE – A decrease in the net financial resources of the IWA due to the acquisition of goods and services

FISCAL YEAR – A 12-month period to which the annual operating budget applies; the Indio Water Authority has specified July 1 through June 30 as its fiscal year

FUND – An accounting entity with a self-balancing set of accounts that record financial transactions for specific activities or government function

FUND BALANCE – The excess of assets over liabilities

GENERALLY ACCEPTED ACCOUNTING PRINCIPLES (GAAP) – Accounting and financial reporting standards, conventions, and practices that have authoritative support from standards-setting bodies such as the Government Accounting Standards Board (GASB) and the Financial Accounting Standards Board (FASB)

GOVERNMENTAL ACCOUNTING STANDARDS BOARD (GASB) – National advisory board of accounting standards for public agencies. Identifies procedures, methods and standards for presenting the financial condition of public agencies

GOALS – Broad, general statements of each division's desired community or organizational outcomes

INFRASTRUCTURE – The accumulated pipelines and storage facilities of the Authority, including meters, valves, pumps, and other appurtenances, whether constructed by IWA or dedicated by private entities

INTEREST EARNINGS – The earnings from available funds invested during the year in US Treasury Bonds, government agencies and Certificates of Deposit

INTERNAL SERVICE FUND – This fund is used to account for the financing of goods and services provided by one department or agency to other departments or agencies of the City, or to other governments, on a cost reimbursement basis

LIABILITIES – Present obligations of the Authority arising from past events

MATERIALS AND SUPPLIES – Expendable materials and operating supplies necessary to conduct department activity

OPERATING TRANSFER – A transfer of revenues from one fund to another fund

OPERATING BUDGET – The annual budget and process that provides a financial plan for the operation of government and the provision of services for the year; excluded from the operating budget are capital projects, which are determined by a separate, but interrelated process

ORDINANCE – A formal legislative enactment by the governing board of a municipality; if it is not in conflict with any higher form of law such as a state statute or constitutional provision, it has full force and effect of law within the boundaries of the municipality to which it applies; the difference between an ordinance and a resolution is that the latter requires less legal formality and has a lower legal status; revenue raising measures, such as the imposition of taxes, special assessments and service charges, universally require ordinances

PROGRAM – An activity or set of activities that provides a particular service to the citizens

PUBLIC HEARING – The portions of open meetings held to present evidence and provide information on both sides of an issue

REPLENISHMENT ASSESSMENT CHARGE (RAC) – An assessment collected and paid to Coachella Valley Water District (CVWD) based upon the amount of groundwater pumped by the Authority

RESERVE FUND – The Authority maintains six (6) reserve funds with varied funding levels as established by the Board of Directors. Reserves are prudent fiscal management tools with flexibility to continually adapt to change, ensure continued operational solvency, and preserve adequate levels of services

RTA - RESERVE – An account used to indicate that a portion of a fund balance is restricted to a specific purpose or not available for appropriation and subsequent spending

 $\ensuremath{\textbf{RESOLUTION}}$ – An order of a legislative body requiring less formality than an ordinance or statute

RESTRICTED FUNDS – These funds are used to account for specific revenues that are legally restricted from expenditure and are for particular purposes

REVENUE – Funds that the government receives as income

SPHERE OF INFLUENCE (SOI) – Is an area or region over which an organization or state exerts some kind of indirect cultural, economic, military or political domination.
