

Construction & Demolition Debris Management Plan

SUMMARY PLAN

Tonnage calculations derived from Plan Worksheet are to be placed in Column A below. The Construction Representative will assist you to determine the most practical destinations for these waste materials keeping in mind the City's minimum diversion requirements together with your project's space, time, labor, and budget limitations.

Material Category	Column A Tons	Column B Salvage/Reuse	Column C Recycle	Column D Disposal	Column E Destination
Asphalt/Concrete					
Asphalt			-		
Concrete			-		
Brick/Masonry/Tile			-		
Brick			-		
Masonry block (broken)			-		
Tile (roof)			-		
Tile (flooring)			-		
Plaster					
Building Materials			-		
(Doors, fixtures, Windows, Plate			-		
Glass, cabinets, Other)			-		
Cardboard			-		
Carpet				-	
Drywall, new or used					
Furniture		-			
Landscape Debris			-		
Scrap Metal			-		
Wood, pallets, clean, unpainted					
(no pressure treated lumber)			-		
Garbage/Trash				-	
Other (Please specify)					
Roofing Materials					
COLUMN TOTALS		-	-		

Diversion Calculation

- 1 Column B Total _____
 - 2 Column C Total _____
 - 3 Sum of above _____
 - 4 Divide answer 3 by Column A Total _____
 - 5 Multiply answer 4 times 100 to calculate proposed Diversion Percentage _____
- Owner /Developer/ Project Manager Agreement of Construction & Debris Plan** _____

If Diversion Percentage is less than 50%, a Representative will make recommendations to assist you in achieving your project's compliance requirements.

NOTE: Burrtec Waste is the ONLY Company authorized to collect solid waste (trash) in Indio. For information regarding the legal hauling of recycled materials call Mike Veto (760) 340-5901
